

(a) *Draft Ozone Criteria Document*—Limited copies of the final revisions will be available at the meeting.

(b) *Draft Ozone Staff Paper*—Single copies of the ozone staff paper may be obtained from Dr. David J. McKee, Office of Air Quality Planning and Standards (MD-15), U.S. EPA, Research Triangle Park, NC 27711. Dr. McKee can also be reached by telephone at (919) 541-5288 or by fax at (919) 541-0237. The Office of Air Quality Planning and Standards (OAQPS) will accept written comments from the public on all aspects of their revised external review draft staff paper for ozone and revised technical support documents through October 16, 1995. Comments should be sent to Dr. McKee at the previously stated address.

For Further Information—Members of the public desiring additional information concerning the meeting should contact Mr. A. Robert Flaak, Acting Designated Federal Official, Clean Air Scientific Advisory Committee, Science Advisory Board (1400F), US Environmental Protection Agency, Washington, DC 20460, telephone (202) 260-5133, fax (202) 260-7118 or via the INTERNET at FLAAK.ROBERT@EPAMAIL.EPA.GOV. Individuals desiring a copy of the draft meeting agenda should contact Ms. Connie Valentine at (202) 260-6552 or by fax at (202) 260-7118 or via the INTERNET at VALENTINE.CONNIE@EPAMAIL.EPA.GOV.

Members of the public who wish to make a brief oral presentation to the Committee concerning the scientific issues contained in the draft staff paper must contact Mr. Flaak in writing no later than 12 noon Eastern time on Tuesday, September 12, 1995, in order to be placed on the meeting agenda. A brief time period will be allocated for presentations on both days; however, public commentators will be limited to five minutes per person or organization [It is expected that oral comments will be heard regarding the primary standard on September 19th and on the secondary standard on September 20th]. The written request should identify the name of the individual who will make the presentation, the organization (if any) they will represent, any audio visual requirements (e.g., overhead projector, 35mm projector, chalkboard, etc), and which issue (primary or secondary standard) they will address. Presentors are expected to provide at least 35 copies of an outline of the issues to be addressed or the presentation itself.

2. Executive Committee

The Science Advisory Board's (SAB's) Executive Committee will hold its quarterly meeting on Thursday and Friday, September 21-22, 1995. On Thursday the meeting will convene at 8:30 a.m. in the Disabled American Veterans Auditorium, 807 Maine Avenue SW, Washington, DC 20460 and adjourn no later than 5:30 p.m. On Friday, the meeting will convene at 8:30 a.m. in the Administrator's Conference Room 1103 West Tower, U.S. Environmental Protection Agency, 401 M Street SW, Washington, DC 20460 and adjourn no later than 12:00 noon.

Purpose of the Meeting—At this meeting, the Executive Committee will receive updates from its standing committees and ad

hoc subcommittees concerning their recent and planned activities. As part of these updates, some committees will present draft reports for Executive Committee review and approval. Drafts expected at this meeting include:

(a) Ecological Processes and Effects Committee

(1) Commentary on Methodology for Developing Bioaccumulation Factors

(2) Review of the Agency's Sediment Criteria for Metals

(b) Environmental Engineering Committee—

(1) Commentary on SAB Review of Computer Environmental Transport and Fate Models

(c) Research Strategies Advisory Committee:

(1) Commentary on Research Planning and Budget

(d) ad hoc Subcommittee on Dioxin:

(1) Review of the Agency's Reassessment of Dioxin

Although the agenda has not yet been fixed, the last item (Report of the ad hoc Subcommittee on Dioxin) will take place on Thursday, September 21.

Additional topics on the agenda include a discussion of

(a) The activities of the Subcommittee on Membership Search

(b) The activities of the Subcommittee on Projects, including consideration of three major projects for FY96:

(1) Readdressing relative risks

(2) Functioning as a lookout panel

(3) The Economics/Natural Sciences Interface

(c) The role of science in the Agency's planning and budgeting process.

For Further Information—Any member of the public wishing further information concerning the meeting or who wishes to submit comments should contact Dr. Donald G. Barnes, Designated Federal Official for the Executive Committee, Science Advisory Board (1400), U.S. EPA, Washington, DC 20460, phone (202)-260-4126; fax (202)-260-9232; or via the INTERNET at: BARNES.DON@EPAMAIL.EPA.GOV. Copies of the draft meeting agenda and available draft reports listed above can be obtained from Ms. Priscilla Tillery-Gadson at the above phone and fax numbers.

Providing Oral or Written Comments at SAB Meetings

The Science Advisory Board expects that public statements presented at its meetings will not be repetitive of previously submitted oral or written statements. In general, each individual or group making an oral presentation will be limited to a total time of five minutes. For conference call meetings, opportunities for oral comment will be limited to no more than five minutes per speaker and no more than fifteen minutes total. Written comments (at least 35 copies) received in the SAB Staff Office sufficiently prior to a meeting date, may be mailed to the relevant SAB committee or subcommittee prior to its meeting; comments received too close to the meeting date will normally be provided to the committee at its meeting. Written comments may be provided to the

relevant committee or subcommittee up until the time of the meeting.

Dated: August 28, 1995.

Donald G. Barnes,

Staff Director, Science Advisory Board.

Science Advisory Board; Notification of Public Advisory Committee Meeting; Meeting Cancellation

Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the previously announced meeting of the Ecological Processes and Effects Committee of the Science Advisory Board, scheduled for September 7-8, 1995, at the Environmental Protection Agency's Washington Information Center, Conference Room 17, 401 M Street, SW., Washington, DC 20460, has been cancelled (60 FR 43594-43595; August 22, 1995). A principal reason for the meeting was to review portions of the Agency's draft document, "Proposed Environmental Goals for America with Benchmarks for the Year 2005." That document is not yet available for review by the SAB, due to additional internal reviews scheduled by the Agency.

Background: The Environmental Goals Project is an EPA effort to define national environmental goals and benchmarks by which to measure progress toward achieving those goals. In 1994, a series of nine public roundtables were held in cities around the country to receive input on the nation's goals for the environment. The draft document, "Proposed Environmental Goals for America with Benchmarks for the Year 2005," summarizes the Agency's proposals for long-range goals and measurable 10-year benchmarks. Following review by other federal agencies and the SAB, the document will be distributed for public review, including a series of public roundtables in early 1996. Concurrent with final federal agency review of the document, the SAB has been asked to review the goals and benchmarks and evaluate the following: (a) Are the long-range goals technically meaningful and achievable? (b) will the goals, if met, result in a healthy and economically secure populace and a healthy environment? (c) are the milestones appropriate for gauging progress toward the goals? (d) do the milestones, taken together, adequately cover the range of technical considerations for each goal? and, (e) what other milestones should be

considered, and is data currently available to allow their use?

For further information on the Environmental Goals Project, please contact Judith Koontz, Office of Administration and Resources Management, US EPA, 401 M Street, SW., Mail Code 3102, Washington, DC 20460, telephone (202) 260-8608.

Dated: August 28, 1995.

A. Robert Flack,

Acting Staff Director, Science Advisory Board.

Withdrawal of Conditional Exemptions From TSCA Section 4 Test Rules

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is withdrawing certain conditional Toxic Substances Control Act (TSCA) section 4 testing exemptions announced in the **Federal Register** of March 31, 1995 (60 FR 16648).

EFFECTIVE DATE: September 1, 1995.

FOR FURTHER INFORMATION CONTACT:

Susan B. Hazen, Director, Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Rm. E-543B, 401 M St. SW., Washington, DC 20460, (202) 554-1404, TDD: (202) 544-0551; Internet: TSCA-Hotline@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: On November 10, 1993, EPA issued a final rule requiring manufacturers and processors of 1,3,5-trimethylbenzene (TMB) as one of four substances named as "Office of Water Chemicals," to conduct oral 14-day repeated dose and oral 90-day subchronic toxicity studies on TMB (58 FR 59667). Petroleum refiners, challenged EPA's final rule arguing that they had received inadequate notice that they might be considered manufacturers of TMB and therefore subject to the test rule. After reviewing the record, EPA agreed that there was an issue as to whether certain manufacturers received sufficient notice that they would be subject to the test rule. As a result, EPA issued a Clarification of Test Rule Notice to clarify that only manufacturers, importers, and processors of TMB as an isolated product, and not persons who manufacture, import, or process the substance as part of complex mixtures or substances, would be subject to the final test rule requiring certain health effects testing. This **Federal Register** Notice was published on September 2, 1994 (59 FR 45629).

On March 31, 1995, EPA published its routine **Federal Register** notice granting conditional exemptions from TSCA Section 4 Test Rules (60 FR 16648). This notice granted conditional exemptions from the requirements to test certain substances pursuant to the Office of Water Chemicals TSCA section 4 test rule issued on November 10, 1993 (58 FR 59667). EPA granted the conditional exemptions for those "manufacturers" of chemical substances who had submitted exemption applications pursuant to the Office of Water Chemicals Test Rule.

Companies are required to submit exemption applications within 30 days after the effective date of a test rule (See 40 CFR 790.45(a)). As a result, EPA received exemption applications for TMB before issuing its Clarification of Test Rule Notice for TMB. However, some of those companies that submitted the exemption applications before EPA issued the clarification may actually not be subject to the requirements of the Office of Water Chemicals Test Rule as clarified because they are "... persons, including relevant petroleum refiners, who do not manufacture, import, or process TMB as an isolated product." (59 FR 45629).

After publication of the March 31, 1995 **Federal Register** notice, EPA realized that because certain companies covered by the Clarification of Test Rule Notice of September 2, 1994 would not be subject to the Office of Water Chemicals Test Rule, they would not be required to test the substance or, in the alternative to provide a request for an exemption from the requirement to test the substance. Therefore, for those companies that are excluded from coverage under the Office of Water Chemicals Test Rule by the September 2, 1994 Clarification of Test Rule Notice, EPA withdraws the granting of the conditional exemption. Such companies were not required to submit an exemption application, "... or any other item that may be required pursuant to a final test rule under TSCA Section 4." (59 FR 45629).

Authority: 15 U.S.C. 2601, 2603.

Dated: August 25, 1995.

Charles M. Auer,

Director, Chemical Control Division, Office of Pollution Prevention and Toxics.

Urban Soil Lead Abatement Demonstration Project; Integrated Report

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of External Peer Review Workshop and Availability of Draft Document.

SUMMARY: This notice announces an External Peer Review Workshop for expert scientific review of the Draft Urban Soil Lead Abatement Demonstration Project Integrated Report and the availability of the draft Integrated Report. It is sponsored by the EPA's National Center for Environmental Assessment.

DATES: This scientific workshop will be held Wednesday, September 20, 1995, through Friday, September 22, 1995. It will begin at 9:00 a.m. Wednesday and concludes at 4:00 p.m. Friday. Members of the public may attend as observers.

A copy of the Draft Urban Soil Lead Abatement Demonstration Project Integrated Report will be available for review on or about September 8, 1995.

ADDRESSES: The meeting will be held at the Sheraton Imperial Hotel and Convention Center, 4700 Emperor Boulevard, Research Triangle Park, NC 27709, Tel: (919) 941-5050, Fax: (919) 941-2958. To attend the workshop as an observer, contact: Ms. Emily R. Lee, National Center for Environmental Assessment—RTP Office (MD-52), U.S. Environmental Protection Agency, Research Triangle Park, NC 27711, Tel: (919) 541-4169, Fax: (919) 541-5078 by September 15, 1995. Space is limited, so please call as soon as possible.

To obtain a single copy of the Draft Integrated Report, interested parties should contact Office of Research and Development (ORD) Publications: Technology Transfer Support Division, Technical Information Branch, National Risk Management Research Laboratory, U.S. EPA, 26 West Martin Luther King Drive, Cincinnati, OH 45268, Tel: (513) 569-7562, Fax: (513) 569-7566. Please provide your name and mailing address, the document title: Draft Urban Soil Lead Demonstration Project Integrated Report (External Review Draft, September 1995), and the EPA document number is EPA/600/R-95/139. Copies will be available on or about September 8, 1995.

SUPPLEMENTARY INFORMATION: The Urban Soil Lead Abatement Demonstration Project, generally known as the "Three-Cities Soil Lead Study," was initiated in 1987 in cooperation with states, state health departments, and local scientists.
